CD/DVD DUPLICATOR

**PRIMERA**  
TECHNOLOGY, INC.

# Get Maximum Performance, Speed and Disc Capacity - with ComposerMAX!

High-volume CD and DVD disc production is easier and more affordable than ever before with the new **ComposerMAX CD/DVD Duplicator** from industry leader Primera Technology. Features include:

- 400-disc capacity
- Four combination Pioneer® DVD/CD recorders
- FireWire® (IEEE-1394) high-speed data interface
- Optional full-color inkjet or thermal disc printers
- Professional CD/DVD duplication software

## Maximum Performance

With its huge 400-disc capacity and high-speed 52x DVD±R/CD-R drives, ComposerMAX is one of the highest performance disc duplicators available. Once a job is started, operation is completely automatic. Simply load up to 400 discs at a time in the four 100-disc input bins. The advanced robotics transport and load discs into four integrated DVD±R/CD-R drives. After recording, discs are moved to the optional disc printer.

## Maximum Speed

ComposerMAX easily connects to a Windows® PC through a FireWire (IEEE-1394) interface for the fastest and most reliable data transfers.

## Maximum Reliability

The integrated robotics have been designed for continuous-duty, high-volume operation in even the most demanding production environments. In a factory life test of ComposerMAX's robotics, over 500,000 discs were transported without a single mis-pick!

ComposerMAX is built tough, too. Its high-impact polycarbonate dust cover, heavy-duty 3/8" (9.52mm) aluminum base plate, 12-gauge steel frame and industrial-quality, 300-watt power supply deliver superior uptime and overall performance.

## Maximum Printing Options

Print high-resolution text, graphics, photos and more onto the surface of each disc with Primera Technology's award-winning Signature Z6® CD/DVD Printer. You'll get professional, robust printing in either monochrome or full process color at up to 4800 dpi. For the fastest and most cost-effective printing, configure your ComposerMAX with the Inscripta™ Thermal CD Printer.

## Maximum Value

For all of its speed, capacity, reliability and performance, you'll be pleasantly surprised at the price of ComposerMAX – about half of other comparable systems! We've accomplished this level of price and performance through innovative engineering, professional and efficient manufacturing, and by offering the right combination of features and benefits that matter most to our customers.

## Technical Specifications

<b>Model:</b>	ComposerMAX CD/DVD Duplicator
<b>Disc Capacity:</b>	400 disc input and output
<b>Configurations:</b>	<ul style="list-style-type: none"> <li>• Four DVD±R/CD-R drives</li> <li>• Signature Z6 CD/DVD Printer</li> </ul>
<b>Optional Printers:</b>	Inscripta Thermal CD/DVD Printer with optional adapter kit.
<b>Minimum System Requirements:</b>	Pentium <sup>®</sup> IV processor at 2.0 GHz or higher, 512MB RAM, 7200 RPM hard drive with DMA enabled, available PCI slot for included FireWire (IEEE-1394) adapter card, one free serial port for robotic control, one free parallel port for printing
<b>Recordable Formats:</b>	CD: CD-R, CD-RW, CD-Audio, Video CD, on-the-fly recording of MP3 to CD-Audio, most other industry-standard CD formats DVD: DVD±R, DVD±RW other formats to be added as they become standardized in the industry
<b>Operating Systems:</b>	Windows 2000, XP <i>Note: For DVD±R system you must have Windows 2000 or XP with an NTFS drive partition</i>
<b>Interface:</b>	
Robotic Control	Serial port
Printing	Parallel port
Disc Image Data	FireWire (IEEE-1394)
<b>Power Requirement:</b>	100-120 VAC or 220-240 VAC, 50/60 Hz, 2A
<b>Weight:</b>	72 lbs. (32.7Kg)
<b>Dimensions:</b>	20"W x 30.5"D x 17.4"H (508mmW x 775mmD x 94mmH)
<b>Certifications:</b>	
Emissions	FCC Class B, CE
Safety	UL, UL-C, CE
<b>Options:</b>	Inscripta Thermal CD/DVD Printer Adapter Kit (ComposerMAX is factory-configured for Signature IV/Signature Z6. Adapter Kit is required when using Inscripta)
<b>Warranty:</b>	One year

### Optional Printers:

*Signature Z6 CD/DVD Printer*

*Inscripta Thermal CD/DVD Printer*

*ComposerMAX is from Primera Technology, the world's leading developer and manufacturer of CD/DVD duplicating and printing equipment. Its management is responsible for the design and manufacture of well over one-million thermal transfer, dot matrix and inkjet printers, including the popular Signature-series CD/DVD printers. Primera Technology products are sold in over 85 countries.*
